

ENVIRONMENTAL POLICY

Perco Engineering Services Limited (Perco) is the UK leader in trenchless technologies including the provision of auger boring, directional drilling, microtunnelling, shaft sinking, headings, pipe bursting, CIPP lining, sliplining, lateral cutting, related consultancy services and the manufacture of pipe bursting and pipe replacement systems.

Perco's primary aim is to reduce the environmental impact of its client's infrastructure. Trenchless technology provides a solution that reduces the environmental risks associated with open excavation. Perco does however recognise that its activities still have the potential to cause harm.

Perco will act at all times to prevent pollution, use resources efficiently, and to limit the impact of our operations upon others. Perco shall comply with legal requirements and other requirements applicable to its activities. It is committed to continual improvement and aim to exceed its own and its client's expectations.

Perco's Quality, Environment, Safety and Health (QUENSH) Management System is certified to ISO14001:2004 and provides the organisation and arrangements of how requirements are achieved.

The environmental objectives of the company are to:

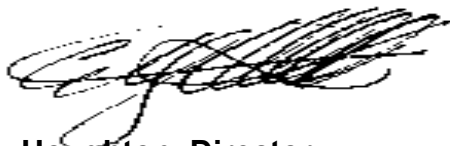

- Promote trenchless technologies as a best practical environmental option.
- Ensure the efficient and sustainable use of resources through good specification, procurement and installation techniques.
- Manage waste to prevent escape and where practicable permit recycling.
- Manage hazardous liquids and contaminated waters to prevent escape into the environment.
- Limit the level of noise, dust, fumes and other nuisances from our site activities.
- Prevent harm to the habitats that we work in.
- Make use of plant and vehicles that makes efficient use of fuel and has low air and noise emissions.

All employees and persons working on the company's behalf are expected to co-operate with Perco in the implementation of this Policy and will ensure that their own work, so far as is reasonably practicable, is carried out with minimum risk to the environment or others.

The Company will establish objectives and review its performance through the Management Review process to ensure continual improvement and effective implementation of the above.

This Perco Policy Statement will be displayed or made available at all workplaces and on the company website and shall be reviewed every year.
